

WordPress themes and plugins

Below is a table containing the plugins that we used in our WordPress solution. The table features the name, user rating out of five stars, the date of the last update (as of April 11th, 2020), the approximate number of active installs, and a brief description of what the plugin uses.

All of these plugins are actively used in our final website and are free to use at least with the functionality we included.

Name	User Rating (/5)	Last Updated, as of April 11	Active Installs	Description
Events Shortcodes and Templates Addon	4.91	1 month ago	10 000+	Show Events Calendars anywhere inside your page or post
